

Case Study

United Utilities

Location: Various

Project: Framework agreement

Framework length: 3 Years

Information:

Building Projects UK Ltd have worked with United Utilities properties for the past 12 months on rural properties and listed buildings throughout the North West catchment area.

Our Services included:

- Roofing Works
- Re-building
- Structural repairs
- Timber restoration
- Internal works to farms
- Stonework repairs
- Plumbing works
- Ground works
- Electrical testing and certification

All projects were carried out under strict Health & Safety guidelines to the delight of our 'blue chip' client.

"Building Projects have worked on many properties for United Utilities. Many of which are isolated and in difficult to reach geographical locations. Great results, an excellent team."

Graham Skeer, Regional Building Surveyor, United Utilities Properties
