

Case Study

Refurbishment – Hereford Hospitals NHS Trust Phase 1

Location: Hereford County Hospital, Hereford

Project: 1st Floor Additional Beds

Project Length: Phase 1: 6 weeks Full Project: 27 weeks

Information:

Building Projects UK Ltd were contracted by Atkins Global as Principle Contractors for a programmed multiple ward refurbishment to create additional beds.

Due to the strict schedule, sensitive surroundings and essential infection control procedures we developed a phased construction Health & Safety Plan and strict construction programme to ensure minimal disruption.

Our works included

- Temporary Screens & Dust Barriers
- Strip out & Demolition
- Medical Gases installation
- HVAC modifications
- New electrical layouts & lighting
- Partitions & Ceilings
- Marmoleum Flooring
- New disabled access bathrooms
- Plumbing & Drainage alterations, including chlorination
- Decoration
- Sealant works

Phase 1 is now complete, to schedule, to budget and to the delight of Hereford Hospitals NHS Trust. They are extremely impressed with the essential cleanliness and the extremely high standard of workmanship.
