Extension to Woodlands Care Centre, Macclesfield

Taylor Young were appointed to design and manage a single storey extension to the Woodlands Care Centre in Macclesfield, on behalf of the client and owner Canterbury Care. The extension was required to provide a larger and improved quality kitchen, laundry and staffroom facilities for the existing home. Building Projects (UK) Limited were appointed as the principal contractor for the scheme.

The Care Home remained in full operation for the duration of the building programme. Building Projects' construction workers were always sensitive to the needs of the staff and residents, ensuring minimal disruption to the day-to-day running. The site manager's approachable manner ensured good communication with all parties was maintained throughout, resulting in a quality building that the building users are extremely pleased with.

I would have no hesitation in recommending Building Projects to complete similar projects in a Care Home environment. Should you require any further information please do not hesitate to contact me.

Yours sincerely,

Kelly Monk
Taylor Young
